## ★ – How It All Started – ★

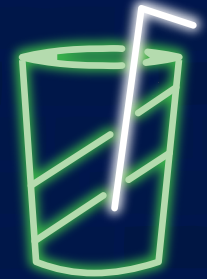

Back in 1942 The Merritt Canteen was just a little shack on a sparse stretch of Main Street, the closest stop off of the Merritt Parkway where you could get a hot dog, burger and some fries.

A new look was in order come 1958 and The Canteen embraced the "Drive-In Restaurant" style along with a new menu and an ice cream shop.

80 years later and we're "still doin' it" the old-fashioned way. Our method is memory - your food is cooked to order.

We continue to evolve - whether with or ahead of the curve - our roots in being the go-to-spot for quick comfort food, will always identify us!

Bridgeport has hosted us and is our foundation. We have been very fortunate to be supported all of these years by multiple generations of loyal and faithful customers. Features on network television like The Food Network "Diners, Drive-ins & Dives" along with write-ups in the CT Post, The Wall Street Journal, and fan base at Sacred Heart University help to spread the word far and wide. All of that recognition makes us proud but we know **it's our home base that keeps us going as we strive to maintain and improve what started so humbly back in '42 and we sincerely thank you for your support!**
